FEB - 2 2006

Dear Sirs / Madames:

Time is running out on our existence as a great nation. If we can't make a decision on energy at this crucial point we have only ourselves to blame. Sen. Kennedy's nephew is on the oil business on the Cape and doesn't want anything to interfere with that and Senator Warner has personal stakes with property on Nantucket in Siasconset.

Try thinking about the dangers of our energy suppliers in the hands of people who hate our country and for once about the cost of oil and gas on the Cape and in Massachusetts.

Thank you
